Press Release - 22st of September, 2011

State of Missouri Grants Contract Extension to SysTech

Opus Prodox AB (publ) today announces that The Department of Natural Resources (DNR) has granted a two year contract extension to Opus subsidiary, SysTech International, LLC.

In 2007, SysTech was contracted by DNR to design, build and operate the Gateway Vehicle Inspection Program (GVIP). The GVIP addresses 1.4 million vehicles that are required to pass safety and emissions inspections in the greater St. Louis area.

"We are pleased that the Missouri DNR has chosen to extend our contract", said Lothar Geilen, CEO of SysTech. "The Gateway Vehicle Inspection Program represents a successful partnership between SysTech and the State of Missouri and we are proud of the convenience and quality of service provided to the motoring public. We greatly appreciate DNR's confidence in the SysTech team as demonstrated by this contract extension."

The order value is not stated due to competitive reasons.
