## Press Release - 15<sup>th</sup> of November, 2011

### Opus Group has reached an agreement to take over operations from Volvo Cars Sweden AB

Opus Prodox AB (publ) today announces that through its wholly-owned subsidiary Opus Bima AB, has reached an agreement that Opus Bima takes over part of Volvo Cars Sweden operations within the sale of hand tools and consumables to, among others, the Swedish Volvo dealers. The takeover is expected to occur during the fourth quarter.

"The takeover of activities is a part of Opus Bimas' strategy to provide the company with more product areas that are less cyclical than investment products. Opus Bima is engaged in the sale of equipment and machinery for vehicle inspection and automotive repair workshops in Sweden. The new product area complements Opus Bima's current range very well. We can now offer all automotive repair workshops and car dealers in Sweden, a complete range from one supplier, which is both cheaper and more efficient for our customers," says Mats Löwendahl, CEO of Opus Bima.

The purchase price for the operations is not disclosed due to competitive reasons. The takeover will be financed through existing cash resources.

The takeover is expected to have a positive impact on earnings per share following the transfer of the operations.
